Potential Partner,

I'd like to invite you to be a part of what we all consider a favorite pastime. The Spokane Sabercats are proud members of the Evergreen Football League. The EFL is a non-profit, semi-professional football league that helps amateur athletes continue their dream and passion for football. Our team mission is to create, build and enhance relationships within the community by promoting involvement, awareness, and support of football. We provide an opportunity for players to succeed in achieving their dreams. We will assume a leadership role for football by combining the positives of athletics and community outreach to form strong relationships throughout the city of Spokane. The Sabercats will field a competitive and entertaining football team while heightening awareness of the great work done for disabled children at the Spokane Guild School and Neuromuscular Center and the American Cancer Society. As Partners we can provide an opportunity for both amateur athletics and two very deserving organizations needing our help. A portion of ticket sales go toward the Spokane Guild School and the American Cancer Society. The EFL has been a springboard for several athletes in just two years of existence. Athletes have signed contracts with professional teams in Europe and with indoor football leagues. A few have even received college scholarships. Without this league, these opportunities may not have come along. The players and owners take pride in their ability to raise awareness for their teams' charity of choice and the communities rally around them. I would encourage you to check out our website at www.spokanesabercats.com or the leagues website at www.evergreenfootballleague.com to learn more about the league and the other teams.

Thank you for considering a partnership with the Spokane Sabercats. I look forward to hearing from you!

Sincerely,

Jeff Ward
